## Stem single pole thermostat

Thermostat for a quick / easy matching with our flange or screw type heating elements

### Technical data:

Applications	Electric water heater
Functional cut-off	Unipolar
Safety cut-out	N.A.
Safety reset	N.A.
Max room temperature	T 105 °C
Rated Current / Voltage	16A 250V AC
Functional temperature range / Accuracy	From 10 °C to 90 °C / in according to Customer specification
Safety cut-out temperature range	N.A.
Thermal hysteresis	8 °C ±4 °C
Standard stem length	280mm
Stem lenght available on request	185mm / 220mm / 350mm / 400mm / 450mm
Electrical connection	Quick faston connection 6,3 x 1,0 mm
External regulation knob	With / Without
